

ThruPatch

Tubing Anchor Catcher

OVERVIEW

The ThruPatch Tubing Anchor Catcher is designed to go through casing patches and set below in the original well casing.

APPLICATIONS

Most rod pumping applications where it is important to maintain tension in the tubing to:

- Increase production
- Reduce wear on rods, tubing and casing
- Reduce down time and operating cost

FEATURES & BENEFITS

- Full opening for 5-1/2" and 7" sizes
- Reduced OD for tight spots and casing patches
- Easy Set – Rotate left to set, right to release
- Emergency Release – Straight pull shear release for extreme well conditions
- Corrosion resistant stainless steel drag springs
- Optional metal grade available
